Updated from the successful third edition, the atlas is designed for resident ophthalmologists and experienced strabimologists alike.

[Von Noorden—Maumenee's Atlas of Strabismus](#)

Atlas of Pediatric Ophthalmology and Strabismus Surgery, by Monte A. Del Monte, MD, and Steven M. Archer, MD, is a simple, practical source of the latest information on diagnosis, surgical anatomy, surgical planning, and surgical technique. The information is presented in a concise, step-by-step "cookbook" format.

[Atlas of Pediatric Ophthalmology and Strabismus Surgery](#) ...

This book is, in fact, far more than a surgical atlas. It is a treatise on the surgical management of strabismus. Helveston kept the same format of line drawings that worked so well in the first three editions. They are clear, easy to interpret, and convey their intended meanings well.

[9780801652530—Atlas of Strabismus by Von Noorden, Gunter](#) ...

"This textbook is an atlas that covers the management of a wide range of strabismus disorders using surgical techniques of varying complexity. It is an updated third edition ... and intended for 'surgeons of diverse experience, from the resident ophthalmologist to the most experienced stabimologist.' ...Overall, I greatly enjoyed this excellently composed compendium of strabismus surgery."

[A Text and Atlas of Strabismus Surgery | JAMA](#) ...

This is the third edition of Helveston's Strabismus Surgery Atlas, which has become a classic in ophthalmology. As the author states, the first edition contained most of what the author had to say...
