16.2 Assessment. 1a. Hutton thought geological processes, such as mountain building, take a very long time, so Earth must be much older than most people believed. Lyell expanded on Hutton's idea by suggesting that the same geological processes that changed Earth in the past are still at work today. 1b.

In Figure \(\text{PageIndex}{2}\), the stages of the lytic pathway are depicted. In this case, a T4 bacteriophage (the term "phage" is used for bacterial viruses) is used as an example. In step 1, the virus attaches to the cell wall. In step 2, the virus injects its genetic material (dsDNA) into the cytoplasm of the bacteria.
