Multi-spindle machining - CHIRON
CHIRON MILL 800. This CHIRON MILL 800 Machining Center (Vertical) was manufactured in the year 2006 in Germany. In the year 2016, the machine was completely mechanically and partially

electronically retrofitted by CHIRON. It has a production record of 1000 working hours since then. Equipped with a Fanuc 18i-MB5 c...

Cnc Chiron Manuals

CHIRON: High Speed Manufacturing and TURNKEY solutions for metal processing. A CNC controlled machining center by CHIRON guarantees high-speed manufacturing and CNC machining with the highest quality and with maximum productivity: For milling, drilling, turning, countersinking, reaming, thread-cutting, sawing.

CNC Programming Manuals User Guides PDF Files - CNC Manual

CNC machine tools from CHIRON with a single spindle are already productive, but when using a machining center with two or four spindles, you can multiply your productivity. The simple formula is: twice the number of workpieces in the same amount of time.

Figure 1: Light path in CHIRON, from the telescope to the CCD. Elements under user control are pink-colored.

CHIRON

CHIRON Training Programming training, basic course After the programming training has been completed, the training partici-pant should be able to create machining programs and enter these in the control. Target group: Operators, setters, maintenance and service personnel Conditions: None or little basic knowledge of CNC programming Topics:

Machines - Mintdale Engineering

CNC Machining; Chiron / Fanuc 21i no coolant on (M7 or M8), but has coolant off (M9) Likes: 1. Post #3186575 ; Results 1 to 10 of 10 Thread ... My issue is that neither M7 nor M8 will turn on coolant. I can press the manual coolant button on the front panel and get coolant. And most of the time I can press the button again to turn off coolant.
