warranty the salesman would not fix the car.

Engine System Fault - Electrical (Mk2 Focus) - TalkFord.com
Ford Focus II (2004 - 2007) - 05 1.6 Engine System Failure on 115PS. Hi folks, Have had intermittent what I would call "stutters" on my Focus occasionally during the 13 months I have had it. (one previous owner, bought at 2.5 year old, 25,000 on clock, now done 42,000). Power loss is similar to someone lightly dabbing the brake, hardly detectable to a passenger but detectable and annoying to the ...

Ford Focus & Engine Systems Fault Warning Lamp - RAC ...
Is the MIL on if so what code are you getting . What is happening is the car has detected a problem and to keep it from doing damage to itself it has gone into limp mode. Limp mode disables alternating cylinders to cool them with just fuel no spark. If the temp gets to hot , the engine will shut... - 2005-2007 Ford Focus
