~~Fundamentals of Business Process Management: Marlon Dumas ...~~

~~Business Process Management (BPM) is defined as the systematic process of making an organization's workflow more efficient, effective, and adaptable to changes in the business environment. In this way, BPM helps to reduce mistakes and miscommunication – a very common occurrence in many organizations.~~

~~Fundamentals of Business Process Management—Executive ...~~

~~The authors of Fundamentals of Business Process Management make it clear that they believe that BPM is quite a bit more than BPMS. On the other hand, their book suggests that they believe students should be introduced to BPM as if it were a process redesign discipline. They have left out the process management! There is little consideration of what would be involved in~~

~~Fundamentals of Business Process Management | Marlon Dumas ...~~

~~ity Management, Human Capital Management, corporate governance, conceptual modeling, workflow management and system engineering. Business Process Management (BPM) is the discipline that now faces the difficult, but rewarding task of consolidating and integrating the plethora of these approaches.~~

~~Fundamentals of Business Process Management—Marlon Dumas ...~~

~~Business Process Management (BPM) is the art and science of overseeing how work is performed in an organization to ensure consistent outcomes and to take advantage of improvement opportunities. In this context, the term "improvement" may take different meanings depending on the objectives of the organization.~~
