Rating Spinal Nerve Extremity Impairment Using the Sixth

Impairment differs from the concept of disability, which is "an umbrella term for activity limitations and/or participation restrictions in an individual with a health condition, disorder, or disease.". Impairment evaluation refers to the "acquisition, recording, and reporting of medical evidence, using a standard method such as described in the Guides to determine permanent impairment ...

Guides Sixth Impairment Training Workbook Lower Extremity

AMA Guides, 6th edition The Sixth Edition represents the continued evolution of impairment evaluation. Many states require the use of the "most recent Edition" of the Guides either by statute or code. The most recent edition is the standard for U.S. Federal workers' compensation cases (Federal Employee's Compensation Act).
