~~Innovation Is The Only True Way To Create Value~~

Creating better value with impact simply means delivering a more powerful punch behind the value that you currently have. To create better value through impact, change the consequence, the effect ...

~~Three ways to build innovation into your organisation~~

Although the importance of design has increased, very little research has been done to explain the relationship between product innovation and product design. Studies indicate that design innovation may create greater customer value through improvements in design value.

~~How Design Thinking Adds Value to Innovation~~

Design is transforming the way leading companies create value. The focus of innovation has shifted from being engineering-driven to design-driven, from product-centric to customer-centric, and from marketing-focused to user-experience-focused. For an increasing number of CEOs, design thinking is at the core of effective strategy development and ...

~~Design Thinking as a Strategy for Innovation~~

In the foreword to my last book, Paul Polman, the CEO of Unilever, states that "marketing and innovation have and will continue to be two of the strongest drivers of margin and revenue growth. The concept of customer value is central to both of them." This is true. And perhaps just as importantly, collaboration and co-creation are increasingly central to creating customer value.

~~Innovation Design Creating Value For~~

Innovation Design gives numerous examples of projects and innovations to illustrate some of the challenges and solutions you may encounter in your journey of designing meaningful innovations and creating shared value. It also offers practical methods and tools that can be applied directly in your own projects.
