Lab 4 Putting Hurricanes on the Map

Part C. Parts of this lab can be completed offline, (although some of the interactive features will be lost). The lab starts with a discussion of weather versus climate using sentence strips. Students can either use the online climate and weather interactive activity, or teachers can print out and distribute sets of sentence strips to lab teams.

Weather Lab 1 Smithsonian Science Education Center

Forecasting Weather MAP Worksheet #1 Figures 1-4 are weather maps for a 24-hour period. The maps show the position of pressure systems and fronts in the United States every 12 hours, beginning at 12:00 A.M. on Thursday. Examine the maps and think about what is occurring. Then answer the following questions. 1.

Investigating weather Geographical Association

Weather Lab is a tool to help visualize how North America's weather is formed. This lab is designed to model the complex interactions between air masses and ocean currents, but like all models it represents probable outcomes. Each prediction you make is for possible outcomes during Spring. Weather Lab is available as a website for desktop and ...
