Access PDF Module 2 Absolute Value Functions Equations And

The $\text{abs}()$ takes only one argument, a number whose absolute value is to be returned. The argument can be an integer, a floating point number or a complex number. If the argument is an integer or floating point number, $\text{abs}()$ returns the absolute value in integer or float.

Module 2 Review- Absolute Value Functions, Equations, and Inequalities

1. Write a function in standard form to match the graph. Let $b = 1$.
(X) $y = |x - 1| + 2$. Find the vertex of the function. (1, 2)
3. Find the domain of the function.
4. Find the range of the function.
5. Given that $f(x) = |x - 4| + 3$ determine if each statement is True or False.

Correction Key = NL-B; CA-B 2 . 1 DO NOT EDIT--Changes must be ...

Absolute value is NEVER equal to a negative value. This equation is never

Access PDF Module 2 Absolute Value Functions Equations And

true. The answer is the empty set.

Example 4 : Solve $3|x + 2| + 1 = 13$.
 $3|x + 2| = 12$ Subtract. $|x + 2| = 4$ Divide.

$x + 2 = 4$ or $x + 2 = -4$ Definition of absolute value. $x = 2$ or $x = -6$

Subtract. The answer is $x = 2$ or $x = -6$.

Problem 1: Solve.

Additions and changes to the original content are the responsibility of the instructor. 1. Module 2 Test Review Absolute Value Functions, Equations, and Inequalities. Use the graph below for 1-4. 1. Write a function in standard form to match the graph.

Heitfield, Jessica (Math) / Unit 2: Absolute Value

$g(x) = 51$ The vertex of the parent

Acces PDF Module 2 Absolute Value Functions Equations And

absolute value function is at $(0, 0)$. The vertex of $g(x)$ will be the point to which $(0, 0)$ is mapped by $g(x)$. $g(x)$ involves a translation of $f(x)$ 5 units to the right and 2 units down. The vertex of $g(x)$ will therefore be at $(5, -2)$.

Module 2 Absolute Value Functions

Absolute Value the magnitude of a real number without regard to its sign; also known as the distance a real number is away from 0, without regard to it's direction. a function that contains an algebraic expression within absolute value symbols.
