### Pltw Kinematicsanswer Key

Project Lead The Way provides transformative learning experiences for PreK-12 students and teachers across the U.S. We create an engaging, hands-on classroom environment and empower students to develop in-demand knowledge and skills they need to thrive. We also provide teachers with the training, resources, and support they need to engage students in real-world learning.

Many, but not all, of the models are built off of a baseplate with a C channel, steel plate, five 1" standoffs and thirteen screws and three nuts, as shown to the right.

### Activity 4.1d Software Modeling Introduction (Digital STEAM)

In this project our group built a solar/hydrogen car. It ran on the hydrogen fuel cell which was charged by the solar panel. Then after we got the first part down we disassembled the solar and hydrogen fuel cells and hooked up a battery which ran a lot smoother and faster.
