Forbes

While it may seem obvious, product knowledge is so important when it comes to marketing to doctors. While not all doctors are the same, it is safe to assume that when you market to physicians, they are going to want to know the facts and see the research that has been conducted on your product or service.

It's important to note that this is not appropriate for every doctor-marketing situation. And, to be effective, email marketing may need professional handling to bring together the right combination of creative elements (such as the list, content, and other key considerations), as well as abiding by anti-spam regulations, personal privacy restrictions and professional, best practice standards.

University of Colorado Internal Medicine

What to Include in a Doctor's Note. A doctor's note, also known as a medical certificate is a document containing the medical advice of a doctor or a medical professional about your current medical condition according to the results of your medical examination. It may serve as your sick note in the instance of your absence from school or work- a verification of your excuse.

5 Things You Don't Know About Marketing To Doctors. Physicians are the central stakeholders in U.S. medicine. Each doctor averages a couple thousand patients under care and controls a couple million in healthcare spend each year. But for marketers, doctors are often seen as one of the most challenging and expensive groups to reach.

Introduction to Survival Analysis

I really value The Marketing Doctors' counsel, and have worked with them for many years, in many roles. Their help in developing strategy, creating new opportunities, engagement activities and events, has always been really valuable to me because they will pick up an idea and run with it, then deliver me back a complete solution.
