well on an old PC. I had  
no problem going  
through most of the  
programs except when  
I tried the games. The  
only one that gave me  
grief was a card game  
that I play a lot on my  
XP that uses two banks  
of four cards.

Usually, the UFW firewall daemon is up and running in Ubuntu server, but the rules are not applied by default. Before enabling UFW firewall policy in you system, first you should add a new rule to allow SSH traffic to pass through firewall via the changed SSH port. The rule can be added by executing the below
